The helmet is supplied with a pair of standard vent covers. The vent covers are available in a choice of colours.

Standard

Optional

Example

Voorbeeld foto is genomen op een donkere achtergrond met een gele reflectie.
manta helm met photoilluminesscent cover zonder reflectie.

The black, green, red and yellow covers are standard. The photoilluminesscent covers are optional, this version glows in the dark increasing the visibility of the helmet considerably.

Reflective tape: (optional)

Reflective tape which complies with SOLAS approvals, making it visible at various angles, which makes the helmet more visible.

On the helmets six pieces of SOLAS reflective tape is applied(as shown below. The tape is certified to include the Canadian and U.S. Coastguard Standards..

Grey by day and bright white at night (at face level)

Internal Eyeshield

Each Manta helmet is fitted with a retractable internal Eyeshield . It meets EN166:2002 standard for industrial eye protection. The eyeshields can also be ordered separately. A choice can be made from the following three colours:

Clear

Smoke

Amber

Clear

For eye protection in any light condition.

Amber

This colour reduces the haze of the blue light spectrum of sunlight, It sharpens the image, be aware that a small distortion of true colours

Smoke

The smoke tint reduces the brightness of the sunlight, without to much colour prejudice

Marine visor

Half Marine Visor

Full Marine Visor

The marine visor is designed to provide additional protection from the elements when hazards are on (fast) vessels.

The Marine visor comes in three versions:

- Full marine visor
- Full marine visor semi smoke(not shown)
- Half marine visor.

The visors are made of Lexan Polycarbonate, a very strong clear thermoplastic. The visors meet the highest impact requirements according to EN166, which is the European industrial eye protection standard.

The marine visors can be worn in combination with various waterproof hearing protection and communication headsets.
